--	--	---

Career Objective : To bring my development expertise and to continue to grow my personal skill set in the best way to benefit your innovative IT projects.

Competences

- Object-Oriented Programming, Software and Web development – UML analysis
- Relational database design, optimization and administration with MySQL and Microsoft SQL
- Dynamic web application with javascript
- Solid foundation in computer science combined with modern programming methodologies brings uniquely powerful skills to the job
- Front end development with PHP, HTML5, CSS and Javascript
- Version Control with GIT
- Capable with shell terminal control
- Creativity methods - SWOT analysis

Relevant Experience

Contractual work (2010 - present)

Work with a variety of clients utilizing and customizing **CMS's** and **ecommerce** software with a combination of **javascript** and custom module built modern applications to exceed the clients needs.

- Ecommerce software - **Magento CMS**, ZenCart CMS, (**CMS** and **database migration**)
- Content Management Systems - **Silverstripe** and **Wordpress**
- Early stage testing **Android** & **iOS** applications for clients
- Example work : www.gameuniverse.fr (currently in build), www.silvestregustolatino.com, www.trulybelisima.com, www.muchmorecakes.ca, www.futureenergys.co.za, www.liaioanniti.com, www.intifoods.com (FEDEX shipping module integration and CMS migration)

Analyst/Web programmer ~ Synergy Computer Consulting, Vancouver, Canada (March 2011 – present) :

- Ecommerce and Web project (Analysis, design, integration, configuration, training, support)
- Utilizing **PHP**, **HTML**, **CSS**, **Javascript** for bespoke applications and customization of open source software to reach clients needs
- Business and UML analysis
- **Database mapping** and **migration using joins and UML** of large scale ecommerce software
- Example Work : www.jcwenterprises.ca, www.hansaaircargo.com, www.torquebranding.com, www.cfcg.ca, www.dfs.synergycc.biz, www.karinscountry.ca, www.softsearch.com, www.synergycc.com

Analyst/Web programmer ~ Soulstice, Johannesburg, South Africa (April 2010 – August 2010) :

- Business and UML analysis and design for ICOFE (UML Development and **Joomla**)
- Example work : <http://www.futureenergys.co.za/>

Object-Oriented Programming Lecturer ~ Institut Africain d'Informatique, Yaounde, Cameroon (February 2010 - April 2010) :

- Lecturing large groups and giving focused tutorial sessions
- Teaching C++ and MySQL

Analyst/Web programmer ~ Modeling and Security Systems laboratory, Centre National de la Recherche Scientifique (CNRS), Troyes, France (April 2008 – August 2008) :

- Created Custom User Interface Editor to build the acclaimed mathematical model "Petri net"
- Object Oriented JAVA programming development
- UML development and relational database design

Education

MSC University of Angers Graduate program of Innovative Technologies (2009-2011)

- Specialities : Technology Transfer, European Projects management and Strategical Information
- **GIT** Version Control – **HTML5** – **jQuery** – **LessCSS** – **CakePHP** – **XCode** – Facebook developer tools
- Business model development : Creativity Cell for small businesses (partnership with Alcatel-Lucent, BELL Labs)
- Creativity methodologies, SWOT Analysis, Blue Ocean strategy

Bachelor of Mechanics and Electronics (2007)

- Technical Projects Management and programming using UML Methodology
- **WAMP** – **Shell** terminal commands – **Eclipse**
- E=M6 Robotic Cup : Hardware coding for controller management with C language
- Global Positioning System Project : Hardware coding in order to retrieve position with C language

Certified computer science and network technician (2006)

- Object-Oriented Programming : C, C++, JAVA and PHP, CSS
- Relational Database : MySQL, MS ACCESS, MS SQL SERVER
- Projects management in OOP with UML (Unified Modeling Language)
- Proportional-Integral-Derivative (PID) Controller : Custom User Interface using C++
- Smart Card reader and writer with Custom User Interface using C++

Qualifications

Languages spoken : French (native), English (fluent), Spanish (intermediate)

Foreign country experience : Object Oriented Programming lecturer at Institut Africain d'Informatique de Yaoundé (April 2010)

Training : Distance learning instructor Oriented Object Programming (Yaoundé, IAI Cameroun), Electrician certification

Community Life

SIGGRAPH : Member 2011

World Wide Cameroun : Vice president 2010. Knowledge transfer in Oriented Object Programming

Minima Neon : Non-governmental organization for the environment, member 2009

Ohm'Art : Member 2009 Visual Jockey

Jongl'Accro : Member since 2007 and president of Jonglagogo 2008 event
